

## **About the Minnesota Soybean Research & Promotion Council**

The Minnesota Soybean Research & Promotion Council (MSR&PC) directs the investment of checkoff dollars to increase profitability for Minnesota soybean farmers.

The soybean checkoff is federally mandated by the Soybean Promotion, Research and Consumer Information Act. Every time a Minnesota soybean farmer sells soybeans, one-half of one percent of the market price is checked off. Half of the checkoff is utilized by Minnesota, while the other half is utilized by the United Soybean Board.

MSR&PC is committed to increasing farmer profitability through the wise investment of checkoff dollars.

All checkoff money collected is used to:

- Fund research for soybean profitability;
- Increase markets for soybean farmers; and
- Educate farmers and nonfarmers about soybeans.
