## MSGA: The leader for Minnesota soybean farmers

Now more than ever, Minnesota soybean farmers are being strapped with more regulations, skyrocketing healthcare premiums – with fewer options – and many more unfavorable policies. Most lawmakers get it; however, some do not. MSGA helps close that gap. Even though we have increased our lobbying efforts – with you in mind – we can do much more with the support and voices of more members.

MSGA, along with other ag groups and organizations, led the way advocating for legislation that significantly impacts your farming operation - like restoring the homestead credit and partial Section 179 conformity.

And, this past year, MSGA spent significant time working to preserve and increase the school bond buy-down for ag land.

MSGA also led the way for successfully securing \$5 million for the Soy Innovation Campus at Crookston; and blocked harmful pesticide regulations from becoming law.

*Dues to the Minnesota Soybean Growers Association are not deductible as a charitable contribution, but may double as an ordinary and necessary business expense. A portion of the dues, however, is not deductible as an ordinary and necessary business expense to the extent that the Minnesota Soybean Growers Association engages in lobbying. **The non-deductible portion of dues for fiscal year 2019 is 14.27% (deductible portion is 85.73%).***
